MANN'S
PARCHMENT COPYING PAPER.

(TRADE-MARK REGISTERED.)

This Parchment Paper is **MUCH STRONGER** and shows a **CLEARER COPY** than any other ever made for the purpose. The Ink is **LESS LIABLE TO SPREAD** and the paper can be written upon with a pen.

DIRECTIONS FOR COPYING.

Place a piece of blotting-board under the leaf of Copying Paper; then, with brush, wet the leaf. Take off surplus water with another sheet of blotting-paper; then place the written letter on the leaf, bearing the blotting-paper under the leaf, to take up any excess of water that may yet remain; place it in the press, and, in ten or fifteen seconds, a perfect copy will be secured.

The leaves **WILL DRY AS SMOOTH AS SILK**, if the book is placed in the Press after Copying.

☞ Place oil-sheets between copies just made, to prevent blending or setting-off.

Another Process, when many Letters are to be Copied.

Procure a tin or iron box, with lid, to hold 20 blotting-pads.—(Boxes furnished, if desired.)

Dip half the lot of blotters in water; let them drain off a few moments; then place a dry blotter between each wet one; give them a few minutes' squeeze in Press and they will remain wet for three days; then take an oil-sheet; place it to the left; then lay a wet blotter; then form leaf of Copying-over on blotter; then lay your letter on; then another oil-sheet, and so on; and you can copy all your letters at one time; thereby saving time. With a little care and experience, at first, as to wetting, you will be so well pleased, as never to resume the old way.

HILL'S BLOTTER BATHS are the best adapted for use in this Process.

To copy **TYPE-WRITTEN LETTERS**, the leaves require **MORE MOISTURE** than they do to Copy Letters written with **PEN AND INK.**

The Mint of the United States at Philadelphia,

Superintendent's Office,

May 23, 1898.

Director of the Mint,

Washington, D. C.

Sir:

I beg leave to state that in opening the bids for the annual supplies for the fiscal year 1899, I found no bidder for Ingot Copper for Alloy.

On the 19th ultimo to secure an option a special proposal was solicited from the present contractors, the Baltimore Copper Smelting and Rolling Company of Baltimore, to which they replied on the 20th ultimo that they would furnish as heretofore, quality, conditions etc. for the fiscal year ending June 30th, 1899, at twelve and one half cents (12-1/2¢) per lb., as per proposal enclosed.

To place this item in competition on May 10th the following named firms were invited to bid on this article and the bids were opened this day:

Park Brothers & Co.,	Pittsburg, Pa.,	declined bidding.
Hall & Carpenter,	709 Market St. Philada.	declined bidding.
N & G Taylor Co.	303 Branch St.	" "
Merchant & Co.	517 Arch St.	" no reply.
Ajax Metal Co.	46 Richmond St.	" 13-1/2¢ per lb.

The Baltimore Co. is the lowest bidder and fully posted as to all requirements. I respectfully recommend that the contract be

awarded to them at 12-1/2¢ per lb.

Letters and proposals enclosed.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,

Superintendent's Office,

May 24, 1898.

Director of the Mint,

Washington, D. C.

Sir:

I beg to inform you that in opening the bids for annual supplies I found no bid for first quality A. A. best American Window Glass.

The following named firms were invited to make a special proposal for this item, viz:

Robert J. Kelley, 46 No. 10th St.

Shoemaker & Busch, 602 Arch St.

Hines, Turner & Co., 626 Arch St. and

Pittsburg Glass Co., 1012 Filbert St.

I respectfully recommend that the contract be awarded to Shoemaker & Busch, with the exception of one size 24 x 34 at $6.15 per box, which I recommend be given to Hines, Turner & Co.

Proposals enclosed herewith.

Very respectfully,

Superintendent.

Sir:

I beg to inform you that in opening the bids for the annual supplies for the fiscal year ending June 30th, 1899, I found but one bidder, Robert J. Kelley, for Best Kettle Rendered Lard at 18¢ per lb.

The present contract price is 6¢ per lb, O. F. Zurn, Contractor.

Proposals were invited from Reilly, Brown & Co., and O. F. Zurn & Co., of this city, both of whom have heretofore furnished this article. The latter company replied that they would furnish the article at 9-3/4¢ per lb. No reply was received from Reilly Brown & Co.

We use from two to three barrels of lard per year and I would respectfully recommend that the contract be awarded to O. F. Zurn Co. at 9-3/4¢ per lb.

Proposals enclosed herewith.

Very respectfully,

Superintendent.

Sir:

I have the honor to enclose herewith the schedule and proposals received for the cleaning of the "Precipitating Wells" under the direction of the Melter and Refiner.

The bid of Mr. Louis P. Kellar #616 Sansom St. of this city is a lump bid of $66. for cleaning both wells. He will be with his men while performing the work and this bid is considered the best.

I recommend the acceptance of same, requesting authority by telegraph.

Very respectfully,

Superintendent.

Sir:

I beg to forward herewith enclosed special assay coins as follows, viz:

Two (2) half-eagles from delivery No. 25 of $100,000.

Very respectfully,

George B. Brownlow
Acting Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office.

May 26, 1898.

Director of the Mint,
Washington, D. C.

Sir:

In reply to the communication of Mr. Chas. E. Kemper, Representative of the Treasury Department at the Trans-Mississippi and International Exposition at Omaha, addressed to you and referred to me, I have to say that the coinage will be shipped as soon as possible. I am informed by the Curator that he cannot do so, however, before next Tuesday morning.

I desire to inform you that there are fifty-six coins of extraordinary value, which we shall not send. We have no duplicates and many could not be replaced at any price. The market value is estimated at $10,460, an average value, therefore, of $186.78, the average face value is $3.08.

Should you deem it advisable and instruct me to ship these coins, which the Curator thinks you should not part with, I respectfully suggest that they be made a separate shipment and extraordinary precautions against loss taken.

Our shipments consist of 1,084 coins, the market value $6,521.25, average value $6.02 and face value $2.47.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

May 27, 1898.

Director of the Mint,
Washington, D. C.

Sir:

I beg leave to request authority to increase the amount to be expended in cleaning the Precipitating Wells in the Melter and Refiner's Department, from $68 to $83.

This increase is asked for because of the necessity of performing this work at two different times. The Melter and Refiner lacking the storage space necessary to complete the work at one time.

The amended proposal of Mr. Louis P. Kellar is enclosed and is the best received, as it will cost much less than it has cost heretofore when done by days work.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,

Superintendent's Office,

Director of the Mint,
Washington, D. C.

Sir:-

By your letter of April 26th I was directed to melt such an amount of uncurrent subsidiary silver coin, now on storage at this Mint, as the balance to the credit of the appropriation, viz:-$[illegible]. for loss on recoinage of uncurrent silver coin would admit.

Since that date we have melted such an amount as absorbed of the allotted appropriation the sum of $23,105.35. From this it would appear that the balance to the credit of the appropriation is $9,513.65.

In your letter of May 31st directing me to melt such an amount as the balance to the credit of the appropriation will admit, you name that balance as $7,809.61. I simply call your attention to the discrepancy between these figures (of which I presume you are aware) in view of your telegram of May 20th directing me to suspend melting until further notice.

Very respectfully,

Superintendent.

Director of the Mint,

Sir:

On May 19th in answer to your favor of the 18th I wrote you giving an estimate of the Gold and Silver Wastage of the Melter and Refiner, and the Coiner, and loss on recoinage of uncurrent minor coin.

The sum total of these items is $30,200.

Your inquiry was doubtless caused by my letter of May 17th, in which I asked whether gold and silver wastage are to be reimbursed entirely from the contingent appropriation, as well as that occurring in minor coinage operations (including loss on recoinage.)

To this sum of $30,200 is to be added the following items:-

Bills unpaid including amount owing to Scovill Mfg. Co. for reworking minor coinage metal,	$5,000.00
Amount of current expenses (estimated) for this month	6,000.00
Making a total of	$41,200.00
The unexpended balance of the appropriation is	$17,876.35

I give these figures so that you may know the exact situation, in case all wastage and loss on minor coin recoinage

(2)

are charged against the Contingent Appropriation and a deficiency appropriation is asked for.

Very respectfully,

Superintendent.

Sir:

I beg leave to enclose duplicate receipted bills for eight dollars ($8.00) in favor of Mr. John Nolan, Teamster, for hauling parts of machinery appliances for coining press, to the R. R. freight station.

The items as enumerated were shipped to the Department Exhibit, Government Building, Trans-Mississippi and International Exposition, (under authority contained in letter of the Director of the Mint May 15th) on the 16th ultimo. Mr Nolan requests an early payment of his bill. I would respectfully ask whether this can be paid out of our contingent appropriation.

Director of the Mint,
Washington, D. C.

Sir:

I beg leave to state that finding it necessary to have additional adjusting balances for the special use of the reviewers, in accordance with Sections 8 & 9, page 31 of Regulations, I invited a proposal from Mr. Henry Troemner, an experienced manufacturer of this city (from whom, I am advised, the adjusting balances were originally purchased) for repairing twelve old Westerneirer Adjusting Balances, using the old base, in accordance with the specifications hereto annexed, thus making practically new balances.

I would recommend the acceptance of the proposal herewith enclosed, to-wit- $400 for repairing twelve adjusting balances.

The balances are very much needed and by using the old base we avoid the payment of the Royalty, and get machines quite as good as new.

I also enclose proposal for furnishing twelve entirely new Adjusting Balances.

Sir:

I beg leave to enclose a report of Mr. Pugh, Adjuster of Scales and Mr. Church, Superintendent of Machinery, on the condition of the Westermeirer Automatic Weighing Machines.

I have also had the machines examined by Mr. Troemner and enclose his opinion.

I am informed that there is a man in New York who understands the construction of these machines and who, if anybody can, is able to put them in working order. The name and address of this person is not known to me, but I am informed is in the possession of the Director of the Mint.

If it be deemed wise to make further examination of these machines, I would suggest that one of them be sent to the person alluded to, with instructions to make a thorough examination and, if possible, put the machine in working condition and report to the Superintendent.

Very respectfully,

Superintendent.

Sir:

I respectfully ask authority to invite proposals from the following Companies, viz:

Orr & Hess Machine Co.,
2321 Vine St., Philadelphia,

F. R. Phillips Sons & Co.,
925 Chestnut St., Philadelphia,

William L. Simpson,
5th & Buttonwood Sts., Philadelphia,

Mossberg and Granville Mfg. Co.,

The Waterbury Farrel Foundry Machine Co.,
Waterbury, Conn.,

Ferracute Machine Co.,
Bridgeton, New Jersey, and

Pittsburg Shear Knife & Machine Co.,
Pittsburg, Pa.

to furnish this Mint with One Finishing Roll, in accordance with specifications enclosed, proposals to be accompanied by an offer as to the character and duration of the test to which said Roll shall be submitted both before and after delivery.

The above list includes all the companies and firms known to us, that furnish rolls adapted to our uses.

There are six or eight others that furnish rolling machinery generally and perhaps that which we require, and if deemed advisable proposals can be sent them.

This roll is very much needed and in my judgment is the first step to be taken in the work of securing better and more modern machinery.

As this roll cannot be supplied and the contract therefor not executed and tested during the present fiscal year, I suggest that the cost thereof (estimated at $2,250) be paid out of the appropriation for the coinage of silver dollars, for the next fiscal year.

Very respectfully,

Superintendent.

Referring to office letter dated the 3rd instant and noting the instructions contained therein, I beg leave to state that it is deemed advisable and I respectfully recommend that the new wire hoisting table for the East side freight elevator be placed in position at once.

Proposals were invited and bids received as follows:-

McCalvey Elevator Works, 602 Cherry St, Phila.,	$9.88
Morse Williams & Co., 1105 Frankford Ave. Phila.,	$12.87
The Albro-Clem Elevator Co., 7th St. & Girard Ave.	$10.00
William Sellers & Co., 1600 Hamilton St., Phila.	$13.50
Stokes & Parrish Elevator Co., Bullitt Bldg. Phila.	No bid.

A copy of the specifications is enclosed.

The enclosed proposals received for this work were opened on the 10th instant.

The proposal of the McCalvey Elevator Works, the lowest bidder, is recommended for approval, as per letter of the Chief Engineer enclosed herewith.

Sir:

Referring to your letter of the 13th instant, authorizing me to invite proposals for furnishing the Mint with a new finishing roll, I beg leave to say that I called yesterday upon Mr. W. Sellers of Wm. S. Sellers & Co., for the purpose of obtaining his advice as to how to proceed to put in effective shape our machine shop, and especially to inform him that we desire to have a first class man put at the head of it. This was in accordance with the suggestions made to me by the Director of the Mint and the Assistant Secretary of the Treasury.

Mr. Sellers was kind enough to take considerable interest in the matter and assured me that he would let me know as soon as he heard of a man, who would in his judgment, suit us.

During the course of the conversation I alluded to the fact that we were about to invite proposals to furnish the Mint with a new finishing roll. He then called in the mechanic who has charge of the rolls in their establishment and they both told me that the very best rolls now made were those manufactured by the Mossberg

& Granville Manufacturing Co., that a roll recently made by them with roller bearings for, I think, the Brown & Sharp Co., was very much superior to anything that had before been made, and suggested that this firm was the one to furnish us with what we desire.

The rolls furnished this Mint, heretofore, by the Mossberg & Granville Manufacturing Co., and not found satisfactory, I am informed, were never calculated to do the amount of work required of them and the Company was not aware of these requirements when the rolls were put in.

This, of course, is simply information received by me. I merely write these facts because it is my duty to do so.

Sir;

I beg to forward herewith enclosed special assay coins as follows, viz:

Two (2) half eagles from delivery No. 36 of $120,000;

Two (2) quarter dollars from delivery No. 142 of $10,000, and

Two (2) dimes from delivery No. 143 of $8,000.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Mac L Superintendent's Office,

June 14, 1898.

Director of the Mint,

Washington, D. C.

Sir:

In accordance with the Revised Statutes, authority of the Department, and the Regulations I beg leave to transmit herewith by registered mail this day; the proposals for supplies received and opened April 13th, 1898, the time designated by advertisement for opening the bids. One hundred and thirty-three schedules were delivered to applicants. Sixty-nine proposals were received and I transmit a general schedule of the bids together with a sheedule of awards, designating the supplies likely to be required for the fiscal year ending June 30th, 1899. The items and bids are arranged in alphabetical order.

With but few exceptions I recommend the lowest bidders, deferring in some cases to the recommendation of the operative officers, letters from whom are herewith enclosed.

The awards as recommended are marked upon the general schedule encircled in blue pencil mark.

The following explanatory notes and recommendations of award to others, than the lowest bidders, and those preferred for reasons given, are respectfully submitted for your approval:

Class 1. There is apparently a wide difference in the bids of Messrs. Alexander Foster & Co. and Mr. Edward A. Hollis, for steel.

In explanation the "Foster" brand of steel is specially recommended on account of quality and strength. It is of a very high grade, and from experience in the Mint it has proved satisfactory, having been tested in new work and repairs of presses and important machinery, also for coining dies, etc.

The steel as per proposal of Mr. Hollis is manufactured by the Howe and Brown Company of Pittsburg, Pa. The different tests that this steel has been subjected to, have proven that it would be economy to use it in may cases instead of the "Foster" brand.

Both brands are marked upon the award for acceptance.

The bid for steel castings is marked rejected, for the reason that the range of price per pound is too great to be satisfactorily adjusted in any orders.

Class 2. Mr. Geo. Megee, Coppersmith, of this city is marked for award of copper annealing canisters and caps #7 Copper gauge at $13.75 each. Merchant & Co. bid the same price. The bid of Joseph Oat & Son is the lowest, but the canisters furnished by this firm have never proven satisfactory, seven out of twenty-four of the last lot furnished, required immediate repairs.

Mr. Megee understands the requirements, has furnished us before, and always in a satisfactory manner. (See letter of the Coiner enclosed herewith.)

Class 6. In the item of Buckwheat coal, the lowest bidder is George B. Newton & Co. for "Seneca" Wyoming Valley buckwheat coal,

at $2.50 per ton.

The specifications call for "Lykens Valley" buckwheat coal, and the award for same to the lowest bidder, viz: F. P. Conrey, at $2.51 per ton, is recommended for acceptance. (See letter of the Chief Engineer enclosed herewith.)

Class 7. The bid of Mr. John R. Rowand is marked for award for the charcoal as a whole. He is slightly higher in one article specified, of which we use but little. Mr. Rowand is a regular charcoal burner. (See letter of Melter & Refiner enclosed herewith.)

Class 9. Shoemaker & Busch's bid of $1.48 per dozen for scrub brushes is preferred to that of 74¢ for a cheaper article, which our experience shows us to be worthless.

The item of brooms and paint brushes, for the same reason is marked for the higher price, for a better grade than those now in use. (See letter of Storekeeper enclosed herewith.)

Class 10. The Moro Phillips Chemical Co. is marked for award for Commercial Acids, as a whole. They are the lowest bidders for Nitric Acid, while slightly higher for Sulphuric Acid (Oil of Vitriol than the next lowest bidder. This latter acid is the smallest item on our acid account, and it is very inconvenient to store and keep separate two sets of carboys, storage being limited in the building. (See letter of the Melter and Refiner)

The chemically pure acids are marked for award to Messrs. Harrison Bros. & Co., as per letter of the Assayer enclosed herewith.

Class 12. The 4-4 Muslin to Thomas G. Hood, at 4-1/8¢ per yard is recommended, rather than the bid of E. A. Gimbel, at 4-1/8¢

per yard, because the latter submitted no samples as the standard of quality, and this muslin is required for a special and important service.

Another strong reason against awarding contracts to E. A. Gimbel, is that they are slow in handling all our orders, which is very inconvenient as we order only for immediate use on account of scant storage room.

Also Gray Linen to Thomas G. Hood, at 16-1/2¢ per yard is recommended, rather than to E. A. Gimbel at 9-1/8¢ per yard. After investigation we find a good quality of Linen cannot be purchased at the latter price.

Huckaback to Mr. Hood at 9-1/2¢ per yard is recommended rather than to Mr. Gimbel at 9-1/8¢ per yard.

Class 14. The Challenge Cylinder and Glade Engine Oils for use of the Engineer, and Glade Machine Oil Spermo B, for oiling shafting are important items. We have tried several of the "Equal to" oils and find them in every case inferior. The bids of Crew Levick Co. for the above items are recommended. (See letter of Chief Engineer enclosed herewith.)

For Albany Grease we received no bids for the genuine article. The Keystone Grease is preferred , and is the only grease of this character now in use in the Mint.

The bid of the Keystone Lubricating Co. is recommended for the Keystone Grease.

Cosmic 110 Dense to Robert J. Kelly at 21¢ per pound, for the genuine article (this article is important for use on coining presses)

D. M. (5)

This bid is preferred and recommended.

Class 17. Hardware, Plumbing, Electric Supplies, Etc. (See general schedule)

Many items in this class apparently are marked for the higher bid, but by taking the standard for quality according to our experience it is deemed best to recommend the bids as marked.

Class 18. Conway's genuine Detersive Soap to Robert J. Kelley at 4-1/2¢ per pound, rather than to the Specialty Soap Co. for another brand that is inferior at 3-1/4¢ per pound, is recommended.

Class 24. Rubber Goods.- In this class the bids marked for acceptance are selected from those sending samples, taking the goods now in use as a standard. The lowest bidders sent no samples.

Class 27. Paints, Varnishes, etc. As these articles take in a variety of composition there is no definite way of judging their purity except by chemical analysis of the pigments, gums, minerals, etc.

After repeated trials of cheaper grades it is deemed best to recommend the bids as marked for acceptance.

Class 28. White Rags.- the samples of old rags of the Cashasco Mfg. Co. are very much superior to the lowest bidder. The samples of the latter cannot be used in entirety, and the former can be used, and are suited for our purposes. The difference in bids is only 1/4¢ per pound and the Cashasco CO's bid is recommended.

The bid for white rag remnants as per proposal of Thomas G. Hood is also recommended. (See letter of the Store-keeper enclosed.)

The hauling of ashes and rubbish as per proposal of Daniel

D. M. (6)

Fitzgerald at 44¢ per load is recommended. The lowest bidder is now the present contractor, and his service to the Mint is a source of constant complaint. He refuses, through his men employed, to comply with the requirements, taking light loads and reports when it suits his own convenience, paying no attention to the letters requesting better service.

I would state that a proposal for supplies was received from Mr. Elwin Corlies #112 So. Front St., this city, at 12-15 P. M. April 13th, the day of opening the bids, and promptly returned with a letter stating that no bids are received after the time advertised for receiving and opening the bids.

I respectfully recommend that the name of William G. Stevenson as substitute for the name of Hugh Shepard Stevenson be approved, as the latter named gentleman is a member of the 1st Regiment, U. S. Vols., and is now in the field. We have been notified that the former named (his brother) will act as principal for expiring contracts, and also for the ensuing fiscal year.

It is also respectfully requested that the schedule of awards to bidders be returned to the Mint at the earliest date possible, in order that we may notify the successful bidders and receive their acceptance, and commence the issuance of orders on the 1st proximo.

Very respectfully,

Superintendent.

Sir:

In obedience to your instructions of June 11th I requested the Superintendent of Machinery to examine two melting furnaces, assay rolls and gold molds, manufactured by the Orr & Hess Machine Company for the Assay Office at Seattle. I beg leave to enclose his report.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,

Director of the Mint,
Washington, D. C.

Sir:

On April 13th I wrote you giving reasons why I thought further precautions ought to be taken against attack upon this Mint.

On April 23th you replied giving me authority to provide such protection at a cost of $10.00 per annum, the amount I named as necessary.

Since that time I have had an interview with the Chief of the Electrical Department of this city, and find that proper and adequate protection, such as many of our banks are provided with will cost $100.00 per annum.

It consists of the Police Signal and Telephone Service, and it will be put in and maintained by the City at the total cost above stated.

It will connect us with the police station of the District direct. A mere touch of the button will bring a patrol wagon and three men at once.

A call through the phone will summon extra assistance. It will keep a check on our watchmen, who will be required to report

every hour or as often as wanted. The wires are underground and cannot be tampered with, and in case the Bell Telephone gets out of order we have it in reserve.

I strongly recommend that I be given authority to employ this service at the cost above stated.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

Director of the Mint,

Washington, D. C.

Sir;

I will thank you to change the item "Profits on the Manufacture of Medals and Proof Coins," in my Statement of Earnings & Expenditures for the Quarter ended March 31st, 1898- from $294.49 to $274.49. The difference of $20 being the cost of copper in such medals sold, reported as profits through a misunderstanding.

If you consider the cost received from the purchaser of Copper Medals as an earning, or in any manner desire to have it appear on the Statement of Earnings & Expenditures, I shall be obliged for such instructions as you deem proper to give.

Very respectfully,

Superintendent.

Sir;

I beg to request that you draw on me for the sum of one hundred and thirty thousand (130,000) dollars- lawful money, to reimburse yourself for a like amount of miner coin, heretofore transferred to this Mint, for reissue= since reissued for lawful money.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

Director of the Mint,

Sir:

I understand that under the recent decision of the Comptroller of the Treasury, regarding reimbursement for loss on sweeps, that all gold, silver, and minor coinage wastage, including loss on recoinage of minor coin are to be reimbursed from Incidental & Contingent Appropriation, and that the value of any surplus in gold or silver bullion, or minor coinage metal, including gains on recoinage of minor coin, are to be kept intact, and deposited in the U. S. Treasury, no part thereof to be applied to any losses.

With the foregoing in view, I beg to request information on the following subject, viz:

When it becomes necessary to transfer from the Incidental & Contingent Appropriation, the amount required to reimburse any minor coinage wastage, including loss on recoinage of minor coin, should that sum be credited to "Minor Coinage Profit Fund" or to a new account, to be called, say, "Minor Coinage Profit and Loss," to which, in addition, both the losses and gains occurring in the minor coinage operations shall be carried, and not to "Minor Coinage Profit Fund," as heretofore.

Very respectfully,

Superintendent.

Sir:

I beg leave to state that upon opening the proposals for annual supplies for the fiscal year 1899, I found a special proposal from Mr. Edward A. Hollis for furnishing machinist's tools, etc., [illegible] List and Discount sheet furnished.

It is considered to be economical and advisable to have such items furnished in accordance with submitted proposals, rather than to make special purchases in the open market, as has been the practice heretofore.

Mr. Charles J. Field was solicited to present a like proposal and he was furnished with the schedule of the general items, and complied with the request. Mr. Field is the lowest bidder except in milling cutters and upon this item the two bidders are the same.

I would recommend the bid of Mr. Field as a whole, or class, the prices being as low as the articles can be furnished for.

Catalogues and proposals enclosed herewith.

Very respectfully,

Superintendent.

Sir:

I have invited proposals for one 10" x 9" Rolling Mill from the all the companies (a list of which I sent you) excepting the Pittsburgh Shear Knife and Machine Co. In accordance with your suggestion I omitted this compuny from the list.

I send you, however, a letter received from them on the 20th ultimo, which please kindly return. In reply to this letter I stated that in case we invited proposals for any machinery in their line, they would be given an opportunity to compete. I did this in all cases where I received letters of this character.

Al the other parties are included in my list, and this company being omitted might, perhaps, lay me open to criticism. I have no acquaintance with these people and simply submit these facts for your consideration.

I respectfully ask authority to incur an expenditure not exceeding in amount forty-six dollars ($46.00) in the employment of labor required in cleaning out the flues, etc., under boilers and base of stack and in the inspection of the boilers in the building in my custody by the Bureau of Boiler Inspection of the the city of Philadelphia.

I contemplate a shut down in the Engineer's Department, from the evening of July 1st until the morning of July 6th.

The public exigency requires the immediate performance of this work and as the labor necessary to be employed is being engaged by manufacturing establishments, generally, throughout this city, I beg the favor of a prompt and favorable reply.

Very respectfully,

Custodian U. S. Mint (Old)

The Mint of the United States at Philadelphia,

Director of the Mint,
Washington, D. C.

Sir:

I beg leave to say that the Engineer desires a shut down in his department from the evening of July 1st until the morning of July 5th, in order to enable him to clean out the flues &c., under boilers and base of stack, and have the boilers inspected by the Bureau of Boiler Inspection of this city.

This will give sufficient time for the boilers to cool so that the work can be done on July 5th, and the time suggested seems to be the most suitable.

I have written the Secretary of the Treasury, as Custodian, for authority to incur the expense necessary, and I respectfully ask your authority to close the Engineer's Department and other Departments, as far as affected by this shut down, the time specified.

The adjusting of course will continue, as we shall provide sufficient work for the adjuster's during the interval.

I beg the favor of an early reply as the labor necessary to be employed is very generally being engaged for about July 1st by manufacturing establishments for the same purpose.

In my letter of the 17th of May I inquired whether the term "all wastage" includes in addition to loss on sale of sweeps all gold and silver wastage of the Operative Officers, as well as that occurring in minor coinage operations (including recoinage).

As the end of the fiscal year is approaching you will very much oblige me by a reply to this inquiry.

I beg leave to ask authority to incur an expense of $102.50, to be paid for out of the Contingent Fund, for repairs required on the gas furnaces in the Engraver's Department, and which have been requested by that official.

The cost of five new burners and five new bottoms for gas ovens $92.50 and two days labor $10.00 is in accordance with the estimate given us by the American Gas Furnace Co., E. P. Reichhelm, President, 23 John St., New York.

They have been inspected by that Company, which I understand have a patent upon the furnace, and it is quite desirable that they be employed to make these repairs. This will be done during the contemplated shut down, from the evening of July 1st to the morning of July 6th.

I notice Mr. Prentzel states that possession can be given sooner if he be permitted to deliver the door unpainted and do the painting after the same is set in place.

I would recommend that the door be delivered unpainted at as early a date as possible, with the understanding that the painting be done after four o'clock each day and before nine in the morning, and that the Superintendent of the Mint have control of the opening and closing of the vault, for this purpose.

Sir:

Mr. Church, Superintendent of machinery, has reported to me that we very much need two coining presses of the larger size, to wit: No. 6, which would be available for all coining purposes.

He reports that all the coining presses are in a very bad condition and need repairs, and that it is impossible to get them for this purpose for a sufficiently long time to do the work properly.

The coining presses he regards as the greatest necessity after the finishing roll. In this matter, Mr. Opper, foreman of the coining room, fully agrees with him, as do also the Coiner and the Assistant Coiner.

Mr. Church estimates that these coining presses will cost us about $4,000 to $4,500 each, that is, if they be smooth finished, which he considers desirable as all the other coining presses are finished this way and it would spoil the appearance of the room to have painted ones, which would cost about $1,500 less.

I write this to ask whether there are any presses in first class condition at Carson City, that is,No.6 presses, and if so, whether we could get one from that Mint. It would then be necessary

for us to buy but one.

Mr. Church thinks the cutting press could very well be left until after a fair trial is given the new finishing roll, but he regards the purchase of the two coining presses at this time as absolutely necessary. He has prepared a set of specifications and drawings which I shall be happy to forward if desired.

Awaiting your reply, I am

Sir:

Referring to your letter of the 23th instant asking to be informed the weight of the large press at this Mint, I beg leave to say that the weight of the Ajax Press, the largest we have, is 12,500 lbs., the next in size No. 6 weighs 8,000 lbs. These are the actual weights of the presses.

The large press at the Carson Mint, I understand, is an Ajax Press and it will do if we can have it, in which event we can do very nicely with one new No. 6.

I shall at once solicit bids and forward my recommendation, as specifications and drawings are ready.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

July 6, 1898.

Director of the Mint,
Washington, D. C.

Sir:

In reply to your letter of the 5th on the subject of overtime and increased force I have to say that I have instructed the Coiner to keep the adjusting force at work until 6 P. M. on and after to-morrow.

In the meantime we shall take such steps to employ such additions to the rolling and annealing force (not very many, I think) as will enable us to run the adjusting room on double time.

This will necessitate a large number of adjusters until such time as we can use the adjusting machines, on which I am at work, with some prospect of success.

Referring to your telegram saying that any additional adjusters required will have to be selected from the eligible list of clerk-copyists, I beg to refer you to the regulations providing for filling vacancies in Schedule "D."

> "from registers of eligibles prepared after a simple examination not more difficult than the skilled laborer examinations of the Civil Service Commission, and practical questions or tests to be determined upon

by the Superintendent."

This clearly contemplates "a simple examination" by the examining board of this Mint supplemented by "practical questions and tests" under the direction of the Superintendent. This in my judgment is the manner in which such appointments should be made and is in my judgment the proper interpretation of the regulations.

Apart from this being the law, we have a large number of applications on file, and it seems to me the board here is not only competent generally, but being operative officers, and acquainted with the Mint work, is especially adapted to this function.

In addition I desire to call your attention to the very marked difference in the language of the regulations, where vacancies in Schedules "A" & "B" are to be filled, and those to be filled in the lower Schedules- In the first two the Commission is clearly to make the examination, in the others just as clearly the Mint Board and the Superintendent.

The "eligible list" in Schedule "D" is evidently an eligible list "prepared by the board and the Superintendent."

Until receiving your telegram I had considered it my manifest duty to proceed to form an eligible list, and I trust you will withdraw any objections to my doing so.

Very respectfully,

Superintendent.

Sir:

I beg to forward herewith enclosed special assay coins as follows, viz:

Two (2) quarter dollars from delivery No. 161 of $10,000.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

July 7, 1898.

Director of the Mint,
Washington, D. C.

Sir:

I enclose six bids for furnishing this Mint with a finishing roll- also specifications, and recommendations of the Coiner and Superintendent of Machinery-

The bids it will be observed are as follows:

Wm. L. Simpson,	$2,800.00
F. R. Phillips Sons Co.,	2,500.00
Orr & Hess Machine Co.,	2,390.00
Ferracute Machine Co.,	2,148.00
" " " (Sup.)	1,948.00
Pittsburg Shear Knife & Machine Co.,	1,935.50
Farrell Foundry & Machine Co.,	1,800.00

I recommend that the contract be awarded to the Orr & Hess Machine Company at the price bid- to-wit $2,390.00 provided the said Company agree to such minor details not set forth in the specifications, as may be suggested by the Superintendent of Machinery.

In my judgment the only other bid to be seriously considered is that of the Farrell Foundry & Machine Co. The guarantee of this Company is not sufficiently clear and adequate.

This objection applies with still greater force to the bids of the Ferracute Machine Co. and the Pittsburg Shear Knife and Machine

Co. I should infer that the last two named have a limited experience in this line of manufacture.

The apparent difference in the bids of Orr & Hess and the Farrell Foundry Co. is $590.

I estimate the difference between a delivery "f. o. b." and "delivered and set up" at $125., making the net difference $465.

In my judgment the very satisfactory guarantee of Orr & Hess [illegible] to the [illegible] of their experience and acquaintance with our [illegible] and requirements and their availability in case of need repairs, or any temporary difficulty, more than compensates for the difference in bids.

I request the return of the enclosed papers, and ask authority to enter into a contract with the Orr & Hess Machine Co. for furnishing one Mint with a finishing roll according to specifications

Very respectfully,

Superintendent

Sir:

I beg leave to inform you that we have coined this month $[illegible],000 in eagles and there will be about $500,000 additional ready for delivery to-morrow, besides of course, a considerable amount of subsidiary and minor coinage. It would be economy to reduce the coinage of eagles during the balance of the month, in which case our coinage of this denomination will perhaps closely approach four millions. In the month of August we could then begin coining standard dollars. I suggest this because we would then be doing more taking the two months together.

I must not say to you that this exceedingly hot weather is very hard on the adjusters and they cannot do as much work as they could in cooler weather.

Sir:

Replying to your letter of the 15th instant, asking for an explanation of the following item:- "Bank credit Medal funds $1245.28" contained in the report made by the Committee who weighed and counted the bullion and coin in custody of the Melter and Refiner and Superintendent, I have to say that this item is involved in the accounts of my predecessor and that at his suggestion I have referred the matter to Mr. Cobb and Mr. Morgan, two of said Committee. Their report will no doubt be completed and will be forwarded by me to you as soon as made.

Very respectfully,

Sir:

I enclose authority for awarding the contract for a finishing roll to the Orr & Hess Machine Co., together with the Agreement of same dated, the original proposal, amended specifications and bond to be given for the faithful performance of the same on the part of the Orr & Hess Machine Co., and request that the matter be acted upon at as early a date as possible.

The name of the surety is omitted for the reason that the Orr & Hess Machine Co. perfer Mr. John E. Reyburn; he is absent from the city at present. If he does not return in time to sign the bond they then propose to offer the American Bonding and Trust Company. Either one of these sureties is amply sufficient.

Sir:

I beg leave to inform you that we now have on hand in five cent nickels $55,000- sufficient to last fifteen or twenty days- and that we have on hand five cent blanks sufficient to coin $118,000.

I also beg leave to suggest that if we are to receive five cent nickels either for re-issue or for recoinage, I prefer to have them at as early a date as possible, as it is desirable that this coinage either for re-issue or recoinage be disposed of as early in the fiscal year as possible.

Should it not be the purpose of the Department to send any such coin for re-issue or recoinage soon, I respectfully suggest that authority be given to proceed with the coinage of the blanks on hand as above mentioned.

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

July 21, 1898.

Director of the Mint,

Washington, D. C.

Sir:

Replying to your communication of the 15th instant, addresseo to the Superintendent of the Mint and by him referred to me, requesting an explanation of the item "Bank Credit" (Medal Fund), embodied in the report of the Committee which made the annual settlement on June 30th, 1898, you are informed that the details of the case are as follows:

On December 31st, 1897, there had been delivered by the Coiner to the Medal Clerk, gold, silver and minor proof coin, amounting to $1,803.22, - which proof coins were sold by the Medal Clerk and the proceeds of such sale deposited in the Chestnut St. National Bank.

On the above date the Coiner requested receipts from the Cashier for the deliveries of said proof coins, which receipts were at first refused, the Cashier stating that he was unable to collect the amount from the Medal Clerk, inasmuch as the money was in the Chestnut St. National Bank which, in the meantime, had suspended.

To enable the Coiner to settle his accounts, and further, to protect the Cashier from any loss, the then Superintendent, H. Kretz, gave the Cashier his check for the amount ($1,803.22) on the Chestnut St. National Bank, with the guarantee that if the Bank failed

to liquidate he, H. Kretz, would pay the cash.

Upon this assurance the Cashier receipted to the Coiner who was thus enabled to settle his accounts.

Since the date of the check the Bank has paid two dividends reducing the amount from $1,803.22 to $1,245.28, which latter amount is covered by said check and carried as cash by the Cashier.

In this connection, Mr. Kretz states that if he is legally responsible (such responsibility to be decided by the Department) and a legal transfer of the claim which now amounts to $1,245.28, against the Chestnut St. National Bank, to be made from "H. Kretz Superintendent" to H. Kretz, he will take up the check and pay the money.

Trusting this explanation is satisfactory, I am

Very respectfully,

Examiner.

Director of the Mint,
Washington, D. C.

Sir:

Herewith I enclose specifications for one coining press, proposals for the building of which were sent out under authority contained in your letter of June 28th, also four bids and a schedule of the same, together with the recommendations of the Coiner and the Superintendent of Machinery.

I respectfully recommend that the contract for the building of this press be awarded to the T. C. Dill Machine Company- for the following reasons:

First- They are the lowest bidders, and are a reputable firm.

Second- They have the plant necessary to do good work.

Third- I am credibly informed that they have built some first class machinery.

Fourth- They are a home company and can inspect our No. 6 & 7 presses at all times.

I am also informed that they can purchase from Orr & Hess the drawings of our No. 6 & 7 presses, which will enable them to materially shorten the time within which they can do the work.

I also recommend that the contract be awarded for a smooth finished press for the sum of $2,960.

A painted finished press would spoil the appearance of the room. This would be especially noticeable in the new Mint, where our presses put in first class condition will present a very fine appearance.

I respectfully request the return of the enclosed papers.

Very respectfully,

Henry K. Boyer

Sir:

I beg to forward herewith enclosed special assay coins as follows, viz:

Two (2) half dollars from delivery No. 171 of $21,000.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

July 22, 1898.

Director of the Mint,
Washington, D. C.

Sir:

I beg to state in reply to your letter of the 21st instant, that the cost price of gold medals struck by the Coiner's Department is regulated by the weight and fineness of the gold.

None of the medals mentioned- to wit-

Time increases his fame,	(last struck cost about	$7.75)
Commencement of Cabinet	do	$6.50
Washington and Jackson	do	$4.75
Life Saving	(Cost not known)	

have been struck during the term of my predecessor or myself.

As my report shows we have none of these medals on hand, and none have been struck for many years. As to the first three we have some memoranda upon which the prices annexed are based-

As to the last, we have no record upon which to base an estimate of value.

Such is the case as to the silver medals, except the Lincoln and Grant, ten were struck for stock May 20, 1898 at a cost of thirteen cents each, to be sold at twenty-five cents. You will note this price (thirteen cents) on the report enclosed.

There is a possibility that the medals referred to cost more

than has been charged, from the fact that our records are not clear on this and that a number were struck years ago.

Now as to bronze medals in copper-

No. 19,	Major Gen'l	Taylor	(6)	cost 30¢	each
No. 20,	"	Scott	(8)	" 30¢	"
No. 21,	"	Grant	(3)	" $1.00	"
No. 103	"	Scott	(9)	" 30¢	"
No. 115,	"	C. W. Field	(2)	cost $1.00	each
No. 131,	"	Jas. Francis	(5)	" $1.00	"

Your calculation is based on ten cents

The cost price of all other copper bronze medals is ten cents.

In addition I find on investigation that about three thousand medals were sent here after the Chicago Exposition. Their value is included in the cash balance carried from quarter to quarter. I cannot state the amount and nobody seems to know anything but this fact.

In connection with this matter of medals it is suggested that authority be granted to turn a large number of gold and silver medals on hand in each quarter, and never called for, into cash, by sale back to the Government for coinage purposes, the amount received to be deposited with the Assistant Treasurer of the U. S. at Philadelphia.

Very respectfully,

Superintendent.

Sir:

In reply to your favor of the 23rd instant referring to the item "Bank credit, Medal Fund , $1245.28" the subject of the report of Mr. Morgan made recently to the Department, and with regard to which you direct me to either collect without delay the amount from Mr. Kretz, or deposit the same myself with the Cashier- I have to say that the statement that this amount was included in my receipt to my predecessor for monies transferred to me on the date of my entering on duty must be qualified by the words included in the receipt "subject to weighing and count." It appears that this item is part of the item $102,490.05 currency. Upon the count recently made by the representatives of the Government it was discovered that a portion of this amount, consisted of the item "Bank credit, Medal Fund $1245.28." This item was made up it appears, by the report of Mr. Morgan, of the monies received from the sale of proof coins by the Cashier and deposited with the Chestnut St. National Bank- which subsequently failed. It, therefore, appears on the count that the amount of $102,490.05 is not in the hands of the Cashier- and that the amount mentioned $1245.28, is

to be deducted, by the very terms provided in the receipt I gave.

I submit that it is difficult to see upon what principle of either law or justice I can be held responsible for this amount. I regard it solely as a matter between my predecessor and the Department.

Of course when the count is finally completed by my predecessor and myself (which is now in process) I shall deduct this and any other amount which shall show to be wanting.

Very respectfully,

Superintendent.

Phila. Aug 1st, 1898.

To the Director of the Mint,

Washington, D. C.

Sir:

To enable me to meet the expenditures for the month ending August 31st, 1898, on account of the appropriations made for the support of this institution for the fiscal year ending June 30, 1899, it is requested that you cause a requisition to be made upon the Secretary of the Treasury for the following amounts, with which I am to be charged and held accountable under my bond dated February 10th, 1898, viz:

Salaries,	$ 3.500.-
Wages of Workmen,	$ 30.000.-
Contingent Expenses,	$ 3.000.-
Parting & Refining Bullion Expenses	$ 3.000.-
Storage of Silver Bullion Act 7/14/90. Expenses	$ 4.000.-
Total,	$ 43.500.-

Respectfully yours,

Acting Superintendent

Director of the Mint,
Washington, D. C.

Sir:

The Superintendent of Machinery has requested that a six ton hoist be secured for heavy hoisting in this institution. The only apparatus we have is an old differential block- both unreliable and unsafe.

There will be a great deal of use for this machine in setting up our machinery and in taking apart and resetting, after repairing, our machinery now in need of overhauling.

The employment of the riggers would cost us, perhaps, $25 per day- so that the machine asked for by the Superintendant will soon pay for itself.

I cordially recommend that authority be given me to purchase this machine from Edwin Harrington, Son & Co. for $135.

The Superintendent states that the hoist made by this firm is the one he desires and the one that will best suit our purposes. There is, therefore, no competition and the price named is the cost price to all purchasers.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

August 2, 1898.

DIRECTOR OF THE MINT,

Director of the Mint,

Sir:

Referring to your letter of the 2nd on the subject of the shipment of minor coin, I desire to ask an explanation of the following clause "When parties desire new coin you will inform them they can obtain the same, if willing to pay express charges." Am I to understand by this that in such cases we are to ship the coin direct from the Mint and whether, therefore, it would be my duty to deposit the draft sent in payment of the coin and ask for information as to whether the parties were willing to pay express charges, and whether it would be my duty upon receiving an affirmative answer to express the coin and upon receiving a negative answer to either return the amount of the draft to the party sending it or deposit that amount with the Assistant Treasurer in case said parties are willing to accept old coin? Of course in either case I shall be obliged to keep a bank account- but the clause I quoted is not clear to me- I therefore, ask for further information.

Very respectfully,

Superintendent.

Sir:

In reply to your letter of August 1st, inquiring whether it would be practicable to coin for Mr. Charles S. Platt of New York, 500,000 one peso pieces, for the Government of San Domingo, I have to say that after we shall have started on double time- and at a convenient time when we are on coin coinage- we can run this through without interfering with our regular coinage to any appreciable extent.

As I understand that Mr. Platt does not intend sending us the blanks for several weeks and that he is not in any hurry for it - I will execute this coinage upon being authorized so to do.

Yours respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

Director of the Mint,
Washington, D. C.

Sir:

I respectfully ask authority to purchase one hundred and sixty-eight files with jackets from Wm. H. Hoskins, at $7.50 per dozen that being the lowest bid we could get.

These files are intended for the letters and documents which have been arranged and put in shape for filing during the last two or three years by two assistants, who have been detailed to do this work, and it is desirable that they be filed.

I am informed that the Treasury Department has a contract for document files and would suggest, if practicable, that a sufficient number be sent us- in which case it will not be necessary to make this purchase.

The size desired is 12" x 5-1/2" front and 11-1/2" back, including the cardis.

Yours respectfully,

Superintendent.

Herewith I send a copy of specifications for one extension lathe, together with the bids received and a schedule of the same, also the recommendation of the Superintendent of Machinery. I indorse this recommendation and respectfully recommend that it be approved and that I be authorized to enter into a contract with Edward Harrington, Son & Co., the lowest bidder, for furnishing, delivering and erecting in the machine shop of this Mint one extension lathe, in accordance with the specifications, for the sum of $1,400.

I might add that this extension lathe is very badly needed. We have work awaiting it for one month continuously- all of which would be necessary to have done by outside parties. Much of our machinery, coining presses particularly, require over-hauling and a lathe of this kind is absolutely essential.

Sir:

I beg leave to acknowledge the receipt of the following arms and equipments, viz:

Received from the U. S. Armory, Springfield, Mass.

Six (6) Colts Revolvers, Calibre 45

Six (6) Screw Drivers for same,

Received from the U. S. Arsenal, Rock Island, Ills.

Six (6) Revolver Belts

Six (6) Revolver Belt Buckles

Six (6) Revolver Holsters

The above items as received will be entered upon the records of this Mint, and noted upon the Arms and ordnance return for the current quarter, ending September 30, 1898.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,

Superintendent's Office,

August 17, 1893.

Director of the Mint,

Washington, D. C.

Sir:

I beg leave to say that our nickel blanks on hand will last about fourteen days and will coin about $60,000.

The last order for nickel blanks has been entirely filled- whether we shall need in the future additional nickel blanks will, therefore, depend upon the amount in the Treasury for reissue, and also the amount of material for reworking sent us.

I am in receipt of a letter from the Scovill Manufacturing Co., asking if any more material is to be sent them for reworking and if so, they desire to have it placed in their hands at as early a date as possible.

I beg leave to inform you that it will take from three to four weeks for the Scovill Manufacturing Co. to fill any order at this time, and I request instructions from you as to whether under these circumstances I am to order at this time additional nickel blanks- and if so, that I be given the requisite authority for such an amount as the Department considers necessary.

I should have stated that the bulk of the material for (Nickel) reworking is now in the hands of the Scovill Manufacturing Co. and will be delivered to us about the close of the present month, and

(2)

will coin in addition to the amount above - about $30,000.

Very respectfully,

Superintendent.

Sir:

In your letter of July 6th, I was authorized to melt and re-coin $1,500,000 in uncurrent subsidiary coin, now on storage, and report promptly the loss on melting.

I beg leave to report that the whole of this, with the exception of $100,000 has been melted.

The Melter & Refiner is now making ingots for standard dollars and it would be very desirable if the Department would permit us to use the balance of this uncurrent subsidiary coin, the tail value of which is $765,000., as mixing the same with silver bullion improves the quality of the ingots. I, therefore, request authority, as stated, if it be advisable at this time to grant it.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

August 19, 1898.

Supervising Architect of the Treasury,
Washington, D. C.

Sir,

I respectfully ask authority to enclose a space about 10ft x 6ft on the third floor of this building, adjoining the rear freight elevator, for the use of the weighers of the coin after coinage.

This will not interfere with any other rooms, and its situation near the elevator will be convenient for delivery of the coin.

I also ask authority to add the width of a corridor to a small room on the same floor, now temporarily used as a beign room, and formerly used for clerical purposes.

This work can be done by our own carpenters, and the entire cost of material will not be over $4.00, which can be paid out of the contingent appropriation, in case we have no appropriation available, if I am authorized so to do, with regard to which I will forward to D reester of the Mint.

Very respectfully,

Chas. H. Boyer
Cashier U. S. Mint. (Old)

The Mint of the United States at Philadelphia,
Superintendent's Office,

August 19, 1898.

Director of the Mint,
Washington, D. C.

Sir:

I enclose copy of a letter sent the Supervising Architect of the Treasury, and I respectfully request that you assist in speedily securing the requested authority.

In the room formerly used as a counting room (at long intervals when necessary) I have placed the adjusting machines- the only place I could find free from vibration.

A small room on the third floor formerly used for clerical purposes (and hereafter to be so used) is now occupied by the weighers of the coin after coinage. The new room, authority for the construction of which I am requesting will be 16ft x 23ft, beside the elevator, and admirably suited for the weighers.

I suggest that if there be no other appropriation available, the expense be paid out of the appropriation for contingent expenses.

Sir:

I submit two proposals for removing the asphalt in the west yard of this institution, from the gate in the rear to the pavement line on the south, and repairing or relaying the granolithic floor in the dynamo room and passage ways. The one from Filbert Bros. & Co. for $[illegible], and the other from the Vulcanite Paving Co. for $462.96.

The pavement in the west yard is not only worn out- but in a very bad and almost unsafe condition - there being deep ruts which would be absolutely in need of repair, if the work is not done now.

It is also necessary to repair, if not to relay a new granolithic floor in the dynamo room and passage ways.

I recommend the acceptance of the bid of the Vulcanite Paving Co., that being the lowest bid and also providing for a new asphalt floor in the dynamo room and passage ways, instead of simply repairing the same as the other bid provides for.

Sir:

In reply to your letter of the 16th, in which you state that Mr. Paul Beckwith, Aid in the Section of American History, states that by mistake he returned two sets (4) of the Benjamin Harrison Presidential medals instead of one set (2) and the Indian Peace medals, I have to say that our list of medals in possession of the National Museum contained one set (2) Benjamin Harrison Presidential medals, one set (2) Benjamin Harrison Peace medals, oblong, and one set (2) Benjamin Harrison Indian Peace medals, round.

On August 2nd we received one set (2) Benjamin Harrison Presidential medals and one set (2) Benjamin Harrison Indian Peace medals, oblong, (not "two sets (4) of the Benjamin Harrison Presidential medals"). On August 20th we received one set (2) of the Benjamin Harrison Indian Peace medals, round, thus completing our list as far as the Harrison medals are concerned.

The medal clerk informs me there are still missing No. 4, two medals of General Howard for Coupens, No. 53, two medals Capt. Jacob Jones for capture of Frolic, No. 126, two medals U. S.

Diplomatic, July 4th, 1776. The above are of bronze. Also two silver medals, Pennsylvania Bi-Centennial.

The medal clerk states he has gone over the matter very carefully with the above result.

Sir:-

I beg leave to call your attention to the enclosed request of the Deposit Weigh Clerk for a requisition for five hundred postal cards, to be indorsed as therein indicated, and addressed to the Superintendent.

The depositors then need only fill in the blanks and mail the postal.

It is desirable to know the sources of deposits, and in many cases it is impossible to obtain them. This method will give the depositor the least trouble, and is therefore likely to be efficacious. I respectfully request authority to have printed and use the same.

Sir:

Your favor informing me of the change in the method of issuing minor coin was accompanied by a few Department Circulars No. 128.

The number of drafts received here has not decreased, and inasmuch as each draft must be properly endorsed, as well as the letters accompanying them, it makes double work for the Chief Clerk as well as for myself.

As my time is very fully occupied, I respectfully request that a number of Department Circulars No. 128, be sent me, in order that I may send them to applicants for minor coin, calling their attention to the fact that their drafts should be sent to the officials therein named.

DIRECTOR OF THE MINT,
Treasury Department,
Washington, D. C.

Sir:

I beg to forward herewith enclosed special assay coins as follows, viz:

Two (2) half dollars from delivery No. 215 of $16,000 and
Two (2) quarter dollars from delivery No. 214 $12,000.

Very respectfully,

Augustus Roper
Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

September 1, 1898.

Director of the Mint,
Washington, D. C.

Sir:

I respectfully ask authority to send out proposals for furnishing this Mint with the lumber necessary to make 20,000 coin boxes for standard dollars.

50,000,000 dollars are boxed ($1,000.00 each) and stored away in consecutive numbers.

15,000,000 remains in bags. These bags deteriorate quickly, and some are now in bad condition.

I desire to place this amount in boxes of like size. The remaining 5,000 boxes will about accommodate the coinage of the current year.

The lumber purchased two years ago for coin boxes cost at the rate of $--.3/5¢ per box.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

September 1, 1898.

Treasurer of the United States,
Washington, D. C.

Sir:

In compliance with your request (B) of yesterday the 31st ultimo I beg to inform you that I deposited to-day with the Assistant Treasurer in this city to the credit of your transfer account two dollars and five cents ($2.05), proceeds of the $5.10 in fractional silver received from you.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,

Superintendent's Office,

September 1, 1898.

Director of the Mint,

Washington, D. C.

Sir:

I respectfully ask authority to pay out of the appropriation for contingent expenses to E. D. Jarvis, 1665 Eastburn Ave., New York City, the sum of $100.- for services performed in adjusting the Automatic Weighing Machines, with a view to putting them in good working order.

Not being able to discover the defects in these machines, from any of our mechanics, I retained Jarvis, the inventor of said gentleman, who at one time had the agency of the original machine. I arranged with him that he was to give us the information necessary to put these machines in good working order - he was to receive the sum of $100. He performed his part of the contract, and I take pleasure in reporting that the first machine, repaired in accordance with his directions, is now at work, and the Superintendent of Machinery reports to me that it is doing its work with great accuracy.

Very respectfully,

Superintendent.

Director of the Mint,
Washington, D. C.

Sir:

I beg to enclose herewith bids received for four barrels Colorado sweeps- offered for sale on the 29th ultimo- containing 18,010 standard ozs. gold and 217.10 standard ozs. silver, viz:

Chicago & Aurora S & R Co., Chicago, Ill., $360.00
Goldsmith Bros., Chicago, Ill., 459.25

Mint value $488.62 approximately.

You will note that the bid of Goldsmith Bros. is in excess of the Mint valuation.

Proposals were made to nine firms or individuals.

Very respectfully,

Harry K. Boyd
Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

September 3, 1898.

Director of the Mint,
Washington, D. C.

Sir:

Permit me to again call your attention to my request for authority to enclose a space on the third floor of this building, on the West side so as to make an additional room. I enclose a rough draft of the room, by which you will observe that the elevator now used to take the coin to the third floor for weighing will open into the new room- and the communication will, therefore, be direct.

The necessity for this room is-that the room we now use for the purpose of weighing the coin after coinage is so small that apart from the fact that business cannot be properly conducted in it- it is really not, in this hot weather, especially, conducive to health. Besides I have other uses for this room, which I also desire to increase in size by enclosing the gallery,-- which you will see by my letter of August 19th.

The cost will be merely the cost of the lumber, perhaps, less that $350. The labor we can do and it will be completed very soon.

I have, as you know from my previous communication, the authority of the Supervising Architect- provided I receive the

(2)

authority of the Bureau to pay the necessary cost of the material from the appropriation for contingent expenses.

My second letter is dated August 29th.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

September 3, 1898.

Director of the Mint,
Washington, D. C.

Sir:

I beg leave to enclose an additional bid received to-day for the four barrels Coiner's sweeps, authority to sell which to the highest bidder I requested in my letter of September End.

Director of the Mint,

Washington, D. C.

Sir:--

I beg leave to refer you to your letter of september 16th., in which you with-hold your approval of my salary, contingent refinery and coinage and storage of silver bullion expense accounts., for the month of August, so far as the pay of E. J. Kirk, $13.75 is concerned, giving as your reason that his removal was to take effect August 1st/, 1898.

I beg leave to say, by way of explanation, that the appointment of Christian Bastian and John Wylie were submitted for your approval in my letter of July 25th, 1898, and subsequently were duly approved. On July 27, I wrote you stating that in submitting these names for approval I had forgotten to explain that they were to take place of E. J. Kirk and William B. Rowan, removed. The last two named removals were to take effect August 1st, subsequent tothe approval of the removal of these men, I was informed that it would not be convenient for Christian Bastian to take the position until August 6th; I therefore permitted Mr. Kirk to remain until that time and the pay roll for August shows that he was paid for the first five days in August, the sum of $13.75, and that Christian Bastian, who was appointed in his place, (letter dated July 27,1898) received payment for the subsequent 25 days $69.50. The two together, therefore, having rendered one full month's service. I therefore respectfully request that you reconsider your disapproval of the aforesaid sum of $13.75

to pay E. J. Kirk for the first five days in August, 1890.

Sir:

In reply to your favor of the 4th instant, calling my attention to the fact that I do not furnish an explanation for the increase in estimates of appropriations for the support of the Mint for the fiscal year ending June 30th, 1900, I have to say- that the first item was an increase from $41,560 to $42,060. This was made for the purpose of an increase in the salary of the Book-Keeper from $2,000 to $2,500. I regard this as a simple matter of justice and I think in the line of suggestions made by Mr. De Land when he visited this Mint to make an examination in its accounts with a view to acquiring information to be used in the creation of several new clerkships in the Treasury Department. He said that our accounts were much the best that he had examined, and that the Book-Keeper seemed to be very pains-taking and a worthy man. He said do not forget that the book-keeper's office is the balance wheel of your institution.

Mr. Thompson is required to be here every day and has not been absent a day since I have been Superintendent. I regard

him as a very valuable man in the institution and that the salary of $2,000 is ridiculously low.

At my suggestion he is endeavoring to educate his assistants up to the standard required, to enable them to do the work should he be necessarily absent. If he were to be taken ill at present I do not know what we would do. For these reasons I respectfully recommend the increase and refer you to Mr. De Land for an estimate of his worth.

As regards the increase in Wages of Workman and Adjusters from $250,000 to $375,000- I take into consideration the last clause of the letter of the Director of the Mint dated September 24th, in which he says "your Mint will be very actively employed for a long time to come."

If the amount of work we are doing at present and the number of workmen we are employing are to be continued during the next fiscal year- I do not regard the suggestion I made as an extravagant one. Indeed it would seem necessary to me to employ additional workmen and adjusters, and these reasons apply to my suggestion that the estimate for incidentals be increased from $55,000 to $100,000- and there is this additional reason to be given, that is- we cannot expect to continue to pay for machinery out of the appropriation for silver dollars.

I assume that next year this item of machinery must be increased, and in addition to that I have added as much as fifty per cent, in many cases, to the other items.

(3)

It is certain that we cannot do any increased amount of work without increased expenditure.

Very respectfully,

Supervising Engineer.

Director of the Mint,
Washington, D. C.

Sir,

In reply to your favor of the 6th instant, with reference to the count now being made I have to say- that the same is not being delayed for want of laborers.

Owing to the limited space in which the men have to work our work has been, and is delayed.

The difficulty is the lack of space in the vaults and in the necessity of replacing the boxes in order to have them in consecutive order. A very large portion have to be handled three different times, and as you know 12,000,000 were taken to the new vault at the Post Office. It is necessary to change the boxes from the old vault to the new one in order to arrange them consecutively.

This is the first count for very many years that is at all complete, and I think when it is finished the coin and bullion in this Mint will be so known and located that a future count will be a comparatively easy matter. In addition to what has been done I think the silver bullion ought to be counted, also, as that has not been counted for many years. When we get to that part of the count, which will be soon, we may be able to use a

few more laborers.

In addition to what I have said we are boxing about 16,000,000 dollars in order to preserve it from rust, &c. The whole amount of coin will be in boxes and in consecutive order.

I have not used the whole of the temporary force but have detailed three to the coiner and one to the Melter & Refiner. They seem to be especially adapted for the work required and we needed additional help very much.

Very respectfully,

Superintendent.

Sir:-

I desire to call your attention to the enclosed [illegible] in this Institution. They are totally inadequate in the first place, and unclean in the second. There are but four (4) small closets to accommodate one hundred and eighty (180) persons! The [illegible] and [illegible] call for prompt action. The closets [illegible]

places. I have estimates from three plumbers for eight (8) closets & the pattern attached to the lowest bidder.

The matter has been carefully gone over by our plumber, a thorough one, and recommends the lower bid, to wit - $140.00 for the very good reason that the upper bid $115.00 contemplates the tanks being up near the ceiling, into which the water could not flow if our water tanks are to be kept supply, while in the $140.00 closets the tanks are low near the seat. The additional cost for pipes our plumber estimates at $30 - I earnestly request authority to expend not $30.00 for this purpose, and respectfully request early return.

Sir:

I beg leave to call your attention to the fact that the $70,000 allowed for loss on recoinage of uncurrent subsidiary coin has been exhausted, excepting the item of $20.49, leaving $10,000 uncurrent subsidiary coin on storage unavailable for recoinage.

The meltings of uncurrent subsidiary coin for recoinage at the close of business October 10, 1898, amounts to $1,160,777.98.

The bullion on hand for subsidiary coin October 1, 1898, was 146,822.34 ounces, which has not been materially increased since that date.

At the rate of our present coinage you will, therefore, see that we have available for subsidiary coin sufficient to last us but a few weeks.

Very respectfully,

Superintendent.

Sir:

In reply to your letter of October 11th, with reference to closing the Mint on the two days of the Peace Jubilee, and inquiring as to whether in that event we would be able to coin our quota for the current month, I have to say- our coinage for the first week was $215,000 in quarters, $60,000 in dimes, and $4,230 in one cent pieces. We have thus far this week coined over our quota. This makes, of course, no allowance for standard dollars. I could coin the quota allotted us and a million standard dollars but the demand for quarters is about double the quota you allotted us. Hence, I should say the question can be answered affirmatively.

In reply to your favor, referring to shipment No. 11 from Seattle and the assay of bar 1367, I have to say- that my attention was directed to this bar and the discrepancy between the report of the Seattle Office and that of our Assayer at the time the assay was made, by the Assistant Assayer, Mr. Pound.

Immediately upon the receipt of your letter I asked for a report from our Assistant Assayer (the Assayer being away on his vacation) which report I enclose. I then directed him to make a re-assay from a fresh clipping and he reported to me verbally that he had done so and attended to every detail personally- with a result of 784.

Referring to your letter of October 25th, stating that Mr. Herman Kretz, my predecessor, is indebted to the United States in the sum of $163., and instructing me to with-hold a sufficient amount of Mr. Kretz's compensation to cover said indebtedness, I have to say- that your instructions will be obeyed pending an adjustment of the matter.

I called Mr. Kretz's attention to this matter and he states that he does not consider himself liable.

I would also suggest that the matter be not definitely closed before the completion of the present count. We have one dollar over so far, for which he is entitled to credit and as 16,000,000 of the standard dollar coinage has never been hand counted a count of that may develope a further sum to his credit. In the meantime the amount in controversy will be with-held from his compensation.
